

As an expert in your industry, you understand that the unexpected cost of theft and vandalism can be more than just the cost of replacement and repair to the damage itself. The flow on consequences of and delays to other parts of the project can often run into millions of dollars on major projects. Why take the risk of not having security on your next project?

Sunstate Security officers are blue care certified to work on construction sites.

### **Duties the security officer can perform –**

- Opening / unlocking of site
- Closing / locking of sites
- Preventing unauthorised entry
- Preventing theft
- Preventing vandalism /damage
- Checking equipment is functioning properly
